

**CHINA WIRELESS TECHNOLOGIES' WHOLLY-OWNED SUBSIDIARY YULONG MADE "TOP 100
SUPPLIERS OF TELECOM INDUSTRY"
IN CHINA INTERNET WEEKLY SURVEY**

INDUSTRY STATUS AFFIRMS BY CHINA'S TELECOM MARKET

(Hong Kong, 17 July 2005) – China Wireless Technologies Limited (“China Wireless Technologies” or the “Group”) (stock code: 2369), China’s leading developer and marketer of wireless system solutions and wireless terminals, announced that its wholly-owned subsidiary, Yulong Computer Telecommunications Scientific (Shenzhen) Co., Ltd. (“Yulong”), has been elected one of the “Top 100 Suppliers of Telecom Industry” by China Internet Weekly, a business weekly for the information technology industry.

China Internet Weekly gauged the opinions of 2,000 sales and technical personnel of China’s six major telecom carriers and 1,000 information system chiefs in finance, education, government and small and medium-sized enterprises on the more than 2,000 suppliers of telecommunication equipment, software and services in the country. One hundred best telecom industry suppliers were selected based on collected votes in terms of the perceived influence of their brands, their ability to innovate, performance of their products and solutions, and quality of services.

Mr. Guo Deying, Chairman of China Wireless Technologies, said, “Yulong made it into the top 100 telecom industry suppliers in the China Internet Weekly survey reflects that China Wireless Technologies is recognized by the telecom market as a solid industry player. The Group will continue to develop new products and improve its existing products and services.”

China Internet Weekly said the survey was aimed at reflecting the trends and pattern of the telecom supply industry from the users’ viewpoint when voting for the 100 best telecom suppliers

About China Wireless Technologies Limited

Established in 1993, China Wireless Technologies is a leading supplier of wireless data total solutions. Leveraging its expertise and knowledge in wireless communications, the Group provides integrated solutions from back-end system to wireless intelligent terminals such as smartphones with proprietary operating systems for the telecommunications, public security, securities, and different industrial and commercial sectors.
